THINGS TO REMEMBER WHEN YOU ARE HERE...

SPEED LIMIT IN THE PARK

The posted speed limit in the park remains 10 km. Please respect this, and remember to tell your guests as well to avoid unnecessary issues.

WOOD ORDERS

Please have your wood orders in before 4PM - all wood orders received after the office is closed will be delivered the following day. Remember, you do not have to be on site to order - text/call the office and we can have your wood delivered and waiting for you when you arrive.

THIS IS BEAR COUNTRY

We are amongst wildlife. Please do not leave anything out which may tend to attract animals. This can include food, bottles, garbage cans, open barbecues, etc. And we strongly recommend NOT feeding the squirrels as they will be more likely to move into a trailer and do damage.

PROPERTY SOUTH OF ROSEWOOD

Again our neighbour's have graciously allowed us to use this space for nature walks or to take our dogs. Please be considerate and pick up after yourself and your pet. Also, remember that the office needs to be aware of all visiting
dogs.

GRASS CLIPPINGS

Just a quick reminder that grass clippings are NOT to go into the garbage bins - please toss them over the ridge. Decomposing grass clippings, branches , etc will work to help stabilize the embankment, and limit further erosion.

VISITORS

We love having your guests share time in the park - please remember to let us know when friends/family are here so we are aware. The office needs to know about all visiting pets as well. If guests are staying overnight, there is a $5/guest/night fee. Thanks in advance for your cooperation.

OFFICE HOURS

Please note that on Tuesdays, Wednesdays and Thursdays I will be best reached by phone/ text as I will be in and out of the office on those days. Should you need to reach me, please call or text and I'll be sure to touch base with you when I am back on site.

PET CARE

It is every pet owner's responsibility to ensure that the privilege of having your pet with you is not ruining the relaxation of others in the park. ALL pet poop is to be picked up immediately, and it is an expectation that your pet will never use someone else's yard to do their business. Also, be mindful of how your pet responds to being left alone in the trailer when you leave without them - if they experience separation anxiety and become 'Sir Barks-a-lot', an anti-bark collar will be required .

Office Hours:
Monday: 10 am - 4pm
Tuesday: Available by phone
Wednesday: Available by phone
Thursday: Available by phone
Friday: 10 am - 6 pm
Saturday: 10 am - 4 pm
Sunday: 10 am - 2 pm

IT'S ALL GOOD MAINTENANCE…

This time of year is when the ticks are a big concern for outdoor pets. Ticks can spread Lyme Disease, which can make dogs very sick and in some cases it can be deadly. Turns out store bought tick deterrents can have hazardous chemicals in them that are not good for pets, or humans! This is a concern for anyone with kids who like to cuddle with their pets.

So, what are the options? When it comes to our pets, most of us would do anything to avoid having them get bit - period - so here is an easy recipe that **WORKS,** and remains safe for use on humans too.

TO MAKE THE SPRAY

1. Pour a quart of boiling water over a large thinly sliced lemon and let steep overnight
2. Drain the lemon water and pour into a large glass spray bottle
3. Add 10 drops Lemongrass oil
4. Add 10 drops Citronella oil
5. Add 1 cup of vinegar
6. Add few drops of Cedarwood oil
7. Add few drops Geranium Rose oil
8. Keep refrigerated and shake well before applying to your dog's coat

TO APPLY THE SPRAY

1. Spray over body, including belly
2. Spray some on your hands to wipe on pet's face so none goes in his/her eyes
3. Run fingers through fur to ensure full coverage

WHY IT WORKS

Essential oils are great for repelling ticks because they hid a dog's scent, so the ticks are less likely to latch onto them. But the ingredients in this recipe have other benefits…

Lemon juice/Lemongrass Oil: ticks HATE the acidic nature of these

Lavender Essential Oil: shown to stop tick eggs from hatching

Cedarwood Essential Oil: blocks the tick's scent receptors, which controls their breathing and movement. Cedar oil also works by dehydrating ticks to the point of death

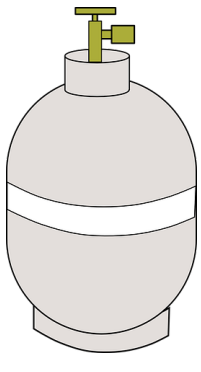
Vinegar: ticks hate this pantry staple

Geranium Rose Oil: shown over and over to be one of the most effective tick repellents EVER

It is important to remember dogs have a much better sense of smell than we do, which makes essential oils stronger to them. Essential oils should always be used with caution around dogs, and never use any undiluted essential oils on a dog's skin or fur.

WHAT'S NEW AT ROSEWOOD

Over the next few months Rosewood Resort will be adding site numbers to the electrical posts on each and every site. This will help clarify site locations for our support services, like EMS and Propane Fills. Our team will be going to each site to taking measurements, prep the posts and apply the decals. The plan is to apply the decals in groups determined by street name - a FB post will go out to give everyone the heads-up when we start, so if you see us 'lurking' around your site, this is what we are doing.



Our Propane Tank Program has taken off and is gaining speed! We now have a total of 15 tanks distributed throughout the park, and we expect more orders before the end of the season. Interested? Want a run-down of the costs? See Karen at the office for details.

Cookie Jar Bakery & Coffee House

Do you suffer from a **SNACK ATTACK** mid afternoon? Is your sweet tooth nagging you again? Well, we have something to help you through this troublesome time. Swing by the Cookie Jar for coffee and a tasty treat - all at an affordable price. Selection will vary week-to-week, but if you have a favourite, let Karen know and she'll be happy to ensure your choice is among those offered that week. The Cookie Jar Bakery and Coffee House is a great place to feed your sweet tooth, and connect with neighbours.

THINGS TO REMEMBER WHEN LOOKING TO SELL YOUR UNIT ON-SITE

If you are looking to **SELL** your unit this season, please talk to Karen before advertising as not all units in the park qualify to be sold on-site. As well, if you have a deck/shed the same applies - structures on your site do not automatically qualify to remain on site with the sold unit. Please note that age, condition, and updates to the building code all have to be considered when deciding if your unit/structures can be sold as-is, and because of this each request will be reviewed individually, and the decisions made can vary from neighbour to neighbour.

Once you have the 'go ahead' to sell, please remember that no private 'for sale' signs are to be posted on individual sites. You are welcome to make up a small (8.5 x 11) poster/typed advertisement and bring it to the office - we'll be happy to post it on our community bulletin board for you, and add it to our FB and website as well.

All showings are to be done by you - do not send your buyers to the office for tours of your unit.

And please remember to meet your buyer at the gate - do NOT give out the gate code to anyone who comes to view your site.

Any and all questions can be directed to Karen at the office.

KICKS AND GIGGLES CORNER

Bob, aged 92, and Mary, aged 89, were excited about their decision to get married. While out for a stroll to discuss the wedding, they passed a drug store. Bob suggested they go in.
Bob asked to speak to the pharmacist. He explained they're about to get married, and asked, "Do you sell heart medication?"
"Of course we do," the pharmacist replied.
"Medicine for rheumatism?"
"Definitely," he said.
"How about Viagra?"
"Of course."
"Medicine for memory problems, arthritis, jaundice?"
"Yes, the works."
"What about vitamins, sleeping pills, Geritol, antacids?"
"Absolutely."
"Do you sell wheelchairs and walkers?"
"All speeds and sizes."
"Good," Bob said to the pharmacist. "We'd like to register for our wedding gifts here, please.
