Welcome Back Everyone...Let The Camping Season Begin!!

THINGS TO REMEMBER WHEN YOU ARE HERE...

SPEED LIMIT IN THE PARK

The posted speed limit in the park remains 10 km. Please respect this, and remember to tell your guests as well to avoid unnecessary issues.

WOOD ORDERS

Please have your wood orders in before 4PM - all wood orders received after the office is closed will be delivered the following day. Remember, you do not have to be on site to order - text/call the office and we can have your wood delivered and waiting for you when you arrive.

THIS IS BEAR COUNTRY

We are amongst wildlife. Please do not leave anything out which may tend to attract animals. This can include food, bottles, garbage cans, open barbecues, etc. And we strongly recommend NOT feeding the squirrels as they will be more likely to move into a trailer and do damage.

PROPERTY SOUTH OF ROSEWOOD

Again our neighbour's have graciously allowed us to use this space for nature walks or to take our dogs. Please be considerate and pick up after yourself and your pet. Also, remember that the office needs to be aware of all visiting dogs.

GRASS CLIPPINGS

Just a quick reminder that grass clippings are NOT to go into the garbage bins - please toss them over the ridge. Decomposing grass clippings, branches , etc will work to help stabilize the embankment, and limit further erosion.

VISITORS

We love having your guests share time in the park - please remember to let us know when friends/family are here so we are aware. The office needs to know about all visiting pets as well. If guests are staying overnight, there is a \$5/guest/night fee. Thanks in advance for your cooperation.

WAITING FOR WATER

Please remember that you can **NOT** pull your traps until the water is turned on, and we have indicated it is OK to do so. Pulling your trap before this will result in sewer backing up into your neighbours unit as the lines are frozen and not draining. If you have questions, please direct them to the office.

PET CARE

It is every pet owner's responsibility to ensure that the privilege of having your pet with you is not ruining the relaxation of others in the park. ALL pet poop is to be picked up immediately, and it is an expectation that your pet will never use someone else's yard to do their business. Also, be mindful of how your pet responds to being left alone in the trailer when you leave without them - if they experience separation anxiety and become 'Sir Barks-a-lot', an anti-bark collar will be required .

IT'S ALL GOOD MAINTENANCE...

Black Water holding tanks work proficiently when they are full.

As per your RV's manual you should pour approximately 5 gallons of water and septic freshener in your holding tank before using your facilities. This method aids in the breaking-up of toilet paper and solids that will block the system due to hardening if this procedure is not followed. And remember it is best not to dump your system until it is at least 3/4 full. The system will only work properly with adequate water volume and pressure to remove all waste material from the holding tank.

Anyone who has lived in an area with a septic system knows how fragile the system is. So we ask everyone to use environmental friendly cleaners and personal toiletries. This will keep the field working to its maximum proficiency.

Water Holding Tanks and Water Lines

The Park's Fresh Water well is shocked and tested prior to giving the OK for use. This is done mainly to kill ay contaminants that may have entered our system over the winter months. The noticeable one is the Iron Bacteria that gives off an offensive odour and turns our sinks and toilets orange. The Iron is not harmful in any way to humans or animals. The chlorine solution that we use helps to get rid of the smell and stains.

When we shock the well and water lines this only cleans out the lines up to your outside taps. To ensure your lines are cleaned and odour free, you must follow the procedure found in your owner's manual for your RV. This typically involves unhooking your hose from our system, pouring a small quantity of bleach in to your hose, reconnecting and turning the water on inside your unit, (sinks and showers too). Your hot water tanks should also be flushed. The bleach will not hurt the tank. Once the smell of bleach cannot be detected the water can be used for cooking and drinking

Water resources are limited due to the fact that the entire Resort operates on a ground water well, therefore water restrictions will be enforced. Mother Nature will be responsible for watering the lawns and gardens. We want to ensure that each and every tenant has water readily available for their consumption.

Cookie Jar Bakery & Coffee House

Do you suffer from a **SNACK ATTACK** mid afternoon? Is your sweet tooth nagging you again? Well, we have something to help you through this troublesome time. Swing by the Cookie Jar for coffee and a tasty treat - all at an affordable price. Selection will vary week-to-week, and choices will be available **all week long**. If you have a favourite, let Karen know and she'll be happy to ensure your choice is among those offered that week. The Cookie Jar Bakery and Coffee House is a great place to feed your sweet tooth, and connect with neighbours.

CLASSIFIED

Looking to **BUY** something? Then you will want to check out the bulletin board in the Community Centre. Here you'll find various items being offered by your Rosewood neighbours. And don't forget to check back frequently as the items posted tend to move quickly.

Looking to **SELL** something? Make up a small (8.5 x 11) poster/typed advertisement and bring it to the office - we'll be happy to post it on our community bulletin board for you. As a heads-up, no private 'for sale' signs are to be posted on individual sites. If the target buyer for your item is a Rosewood neighbour, then the best place to advertise it is on the bulletin board. If the target buyer is from outside the park, we suggest posting the item on an on-line marketing site (ie Kijiji, Craigslist, LetGo).

LOST & FOUND

Miscellaneous items were blown away from their 'home' during the winter season. If you are missing an item, we may have picked it up - stop by the office to inquire.

TORNADO PROCEDURE

Tornado watches are not uncommon in this area; be prepared:

- 1. Monitor the Weather Network for updates.
- 2. Leave immediately when a tornado warning is issued.
- 3. Know where to go for shelter; remember, Mountain View County DOES NOT have an emergency shelter in place right now.
- 4. Environment Canada suggests you do NOT stay in your trailer. If time allows, get in your vehicle and drive in the opposite direction of the tornado.
- 5. Remove lawn furniture and other objects from your yard that could become projectiles to an inside location - again, only if time allows.
- 6. Bring your pets, if allowed, in a carrier.
- 7. Grab only essentials (purse, ID, cash) and only if easily accessible.
- 8. Don't waste time searching for anything.
- 9. Wherever you find shelter, stay away from windows.

KICKS AND GIGGLES CORNER

Police stop- 2:00 am

Ron Chestna, 89 years of age, was stopped by the police around 2 a.m. and was asked where he was going at that time of night.

Ron replied, "I'm on my way to a lecture about alcohol abuse and the effects it has on the human body, as well as smoking and staying out late."

The officer asked, "Really? Who's giving that lecture at this time of night?"

Ron replied, "That would be my wife."
